1. Qualitative Information on Financial Results for the Nine Months of FY3/2023

(1) Analysis of Operating Results

In the first nine months of FY3/2023 (April 1, 2022 - December 31 2022), while the COVID-19 infections continued to have affected Japan, its economic outlook remained uncertain due to rising prices of raw material and energy, which was prompted by Russia's invasion of Ukraine, a surge in prices in general, policy interest rate increases in various countries, the depreciation of the yen, and the prolonged problem of supply constraints driven by global supply chain disruptions.

Concerning the environment surrounding UT Group, although demand for semiconductors is expected to increase over the medium to long term on the back of the expansion of information and communication technology and the acceleration of global decarbonization, capital investment and production activities by semiconductor manufacturing equipment (SME) makers and semiconductor makers have recently been affected by inventory adjustments and other factors and have shown a sign of slowdown. Meanwhile, automobile-related manufacturers have intermittently suspended operation mainly due to shortages of parts supply.

Under these circumstances, UT Group advanced its Fourth Medium-term Business Plan (FY3/2021 - FY3/2025). With a medium-term target of "creating a diversity & inclusion workstyle platform," the following three growth strategies have been promoted: One-stop Strategy to provide personnel to large manufacturers; Area Platform Strategy; and Solution Strategy. In the core business of worker dispatch to large manufacturers, the Company aims to enhance development of SME engineers so as to raise its share in all processes at client factories. The Company also seeks to establish a stable employment environment in local workplaces via alliances with and M&As of local major companies, and to further expand and strengthen its business base by supporting personnel mobilization of large corporate groups.

The current FY3/2023 is the third year of the Medium-term Business Plan. The Company is seeking to raise its top line based on the increased number of technical employees accumulated through the enhanced hiring activities in the previous year. The Company has been making efforts to establish a leaner business base and improve profitability in order to realize accelerated growth over the medium to long term.

Effective April 1, 2022, UT Group carried out a major reorganization within the Group. Operating companies with common business characteristics were integrated to enhance the ability to execute each growth strategy of the Medium-term Business Plan. In addition, since April 2022, we have been gradually introducing a new business system to standardize and communize administration and other tasks among the operating companies with the aim of improving labor productivity and further optimizing staffing. Moreover, efforts to improve hiring efficiency have been made by integrating job opportunities held by each operating company and promoting optimal hiring operations.

As a result, in the first nine months of FY3/2023, UT Group recorded net sales of 128,092 million yen (up 12.4% from 113,995 million yen in the same period of the previous year), operating profit of 5,606 million yen (up 26.2% from 4,443 million yen), EBITDA of 12,082 million yen (up 124.9% from 5,372 million yen), ordinary profit of 5,526 million yen (up 24.9% from 4,424 million yen), and profit attributable to owners of the parent of 1,758 million yen (down 4.8% from 1,846 million yen). The number of technical employees was 46,549 (up 6,471 from 40,078 a year ago).

With regard to expenses, stock-based compensation expenses of 5,568 million yen have been recorded in light of the increased probability of achieving the performance conditions for the exercise of stock acquisition rights resolved at the meeting of the Board of Directors held on May 20, 2020.

UT Group Co., Ltd. (Code 2146): Summary of Consolidated Financial Statements for the Nine Months of FY3/2023 The operating results of each business segment are summarized below. From the first quarter of FY3/2023, the segment classification has been changed from the previous three segments (Manufacturing, Solution, and Engineering) to five segments (Manufacturing, Area, Solution, Engineering, and Overseas). The year-over-year comparison has therefore been made using the reclassified segment basis for the first quarter of FY3/2022. Please see details in (Segment Information) of "(3) Notes to the Quarterly Consolidated Financial Statements" in "2. Quarterly Consolidated Financial Statements and Significant Notes."

(Manufacturing Business)

In the first nine months of FY3/2023, the "Transportation Equipment" subsegment continued to experience production adjustments by automobile-related manufacturers due to a shortage of parts and materials. The "Industrial and Commercial Machinery" and "Electronics" subsegments have cautiously carried out hiring activities since the beginning of autumn, taking into account customer conditions such as postponing new demand for increased headcount due to the impact of inventory adjustments in semiconductors and other factors. Under these circumstances, the number of technical employees increased slightly year-on-year, and segment sales increased due to the promotion of high-level human resource management and the dispatch of highly-skilled workers who were developed in-house. In terms of expenses, segment profit increased due to successful efforts to reduce SG&A expenses such as streamlining hiring-related expenses.

As a result, in the first nine months of FY3/2023, the segment recorded net sales of 62,274 million yen (up 11.9% from 55,666 million yen in the same period of the previous year) and segment profit of 8,528 million yen (up 89.9% from 4,491 million yen), while the number of technical employees was 14,597 (up 42 from 14,555 a year ago).

(Area Business)

The Area Business strived to develop new clients and deal with more diversified job openings of its existing clients in each of its operating areas, so that to respond to diverse needs of job applicants. The segment conducted hiring activities accordingly, which resulted in a significant increase in the number of technical employees and sales growth in the first nine months of FY3/2023. Segment profit also increased due to efforts to reduce SG&A expenses, such as commonizing the operating base through the Group's major reorganization on April 1, 2022.

As a result, in the first nine months of FY3/2023, the segment recorded net sales of 38,254 million yen (up 16.8% from 32,754 million yen in the same period of the previous year) and segment profit of 1,561 million yen (loss of 613 million yen), while the number of technical employees was 13,095 (up 1,538 from 11,557 a year ago).

(Solution Business)

In the first nine months of FY3/2023, the Solution Business segment sales decreased as the positive effects of sales increase from UT FSAS Creative, which became a consolidated subsidiary in October 2021, came to an end and due to the sale of UT System Products Co., Ltd. at the end of March 2022. The segment, however, increased profits due to an increase in the number of technical employees at the existing subsidiaries and an increase in operation at some contract sites.

As a result, in the first nine months of FY3/2023, the segment recorded net sales of 13,936 million yen (down 6.4% from 14,893 million yen in the same period of the previous year) and segment profit of 156 million yen (up 587.4% from 22 million yen), while the number of technical employees was 3,116 (up 63 from 3,053 a year ago).

(Engineering Business)

In the nine months of FY3/2023, approximately 200 new graduates who joined UT Group in April 2022 were assigned and in active operation at an early stage. The segment's efforts to develop and assign new graduates have been successful and the new graduates who joined this year were assigned and became operational at an earlier time than those who joined in the previous year. In addition, order booking was favorable for both the construction and IT fields,

UT Group Co., Ltd. (Code 2146): Summary of Consolidated Financial Statements for the Nine Months of FY3/2023 and the number of technical employees increased y-o-y, resulting in an increase in segment sales and profit.

As a result, in the first nine months of FY3/2023, the segment recorded net sales of 6,772 million yen (up 14.9% from 5,896 million yen in the same period of the previous year) and segment profit of 790 million yen (up 42.0% from 557 million yen), while the number of technical employees was 1,533 (up 182 from 1,351 a year ago).

(Overseas Business)

In the nine months of FY3/2023, Vietnam's economy achieved a clear recovery, as COVID-19 restrictions were lifted and GDP maintained high growth. The Overseas Business has expanded its business areas from the southern region centering on Ho Chi Minh City, Vietnam, where it has offices, to the northern region centering on Hanoi, and made efforts to acquire contracts from Japanese companies. The number of technical employees tends to seasonally decrease around the time of the Tet Lunar New Year holiday (from late January to mid- February) in Vietnam, but the relaxation of COVID-19 restrictions in October 2021 led to lifting of restrictions in production activities. As a result, a higher number of technical employees continued be active in operation in 2022 compared to the previous year, and the Overseas Business increased sales and profit.

As a result, in the first nine months of FY3/2023, the segment recorded net sales of 6,871 million yen (up 42.8% from 4,811 million yen in the same period of the previous year) and segment profit of 154 million yen (loss of 1 million yen), while the number of technical employees was 14,208 (up 4,646 from 9,562 a year ago).

Please note that the Overseas Business recorded its results for the January-September 2022 period in the first nine months of FY3/2023 with a delay of three months because its settlement date was the last day of December.

(2) Analysis of Financial Position

(Assets)

Current assets as of the end of the third quarter of the fiscal year increased by 5,312 million yen from the end of the previous fiscal year to 55,060 million yen. This was mainly due to an increase of 5,627 million yen in cash and deposits. Non-current assets amounted to 15,446 million yen, an increase of 1,087 million yen from the end of the previous fiscal year. This was mainly due to an increase of 1,356 million yen in software along with the progress of an investment to system construction of UT Group.

As a result, total assets increased by 6,399 million yen from the end of the previous fiscal year to 70,507 million yen.

(Liabilities)

Current liabilities at the end of the third quarter of the fiscal year increased by 2,373 million yen from the end of the previous fiscal year to 27,840 million yen. This was mainly due to an increase of 2,290 million yen in income taxes payable. Non-current liabilities amounted to 14,673 million yen, down 2,734 million yen from the end of the previous fiscal year. This was mainly due to a decrease of 2,711 million yen in long-term borrowings.

In sum, total liabilities were 42,514 million yen, down 361 million yen from the end of the previous fiscal year.

(Net assets)

Net assets as of the end of the third quarter of the fiscal year was 27,992 million yen, up 6,760 million yen from the end of the previous fiscal year. Profit attributable to owners of the parent amounted to 1,758 million yen and an increase of 5,568 million yen in share acquisition rights was more than offset by distribution of dividends from surplus of 968 million yen.

As a result, the equity ratio was 29.5%, compared to 30.8% at the end of the previous fiscal year.

(3) Description of Consolidated Earnings Forecast and Other Forward-looking Information

UT Group's consolidated forecasts for FY3/2023 remain unchanged, as announced on May 13, 2022.

(Application of special accounting methods for presenting consolidated financial statements)

(Calculation of tax expenses)

Taxes are calculated by multiplying profit before income taxes by the reasonably estimated effective tax rate after adjustments for tax effect accounting to the profit income before income taxes for the current consolidated fiscal year ending March 31, 2023 including the third quarter.

In case that the tax expenses calculated by the estimated effective tax rate result in a significantly unreasonable amount, the legal effective tax rate is used.

(Change in accounting policies)

The Implementation Guidance on Accounting Standard for Fair Value Measurement (ASBJ Guidance No. 31, June 17, 2021) has been applied since the start of this first quarter, and the Company has decided to apply the new accounting policy set forth by the Implementation Guidance on Accounting Standard for Fair Value Measurement into the future in

UT Group Co., Ltd. (Code 2146): Summary of Consolidated Financial Statements for the Nine Months of FY3/2023 accordance with the transitional procedures stipulated in Paragraph 27-2 of the Implementation Guidance on Accounting Standard for Fair Value Measurement. This will have no impact on quarterly consolidated financial statements.
